NAME

The FBSN is different. Our annual event is too.

1. Look around you. Everyone here has been vetted to confirm they are either a currently certified law-enforcement officer, an emergency first-responder, a chaplain, active in safety or leadership at their ministry, or a sponsor supporting the FBSN. You have all successfully passed through some form of vetting.
2. Look at the speakers. 36 speakers teaching in 46 sessions over 3 1/2 days. They are delivering the teaching, training and tools needed to help you be ready, willing & able.
3. This booklet is designed to fit in your file folder back home. Most importantly however, take notes for advanced training for your home teams – don't leave it in that file! Put it to work.
4. The FBSN is distinctive; a professional 501c3 association of empowered members. The FBSN brings professionalism to our endeavor as the trend towards responsible citizen defenders continues.
5. How about this facility and their hospitality!? Take some time to increase your familiarity with Cornerstone Church and their mission.

Thank you for being here.

Nearly 400 of you have come from 40 states for the 7th annual Security Operation Summit! We are doing regional FBSN events throughout the year as well starting with Region 5 in Wisconsin on September 6. If you want a regional conference in your area, contact us at events@fbsnamerica.com

READY

Show up. Be present when you're counted on.

WILLING

Be spiritually and mentally willing to do the right thing.

ABLE

Be properly trained and equipped.

ABOUT THE FAITH BASED SECURITY NETWORK

The FBSN now has over 850 members in 48 states!

Law-enforcement officers, private security professionals and volunteer security operators came together across America over the last 8 years to form the Faith Based Security Network (FBSN).

FBSN members understand no one person has all the answers, nor is there any one answer for all security related possibilities, locations and cultures. FBSN members however, have the benefit of the collective acumen and experience of hundreds of connected peers through the professional membership association. Members can engage with each other to collaborate best practices, proven resources and partake in secure communications in their quest for doing faith-based security well.

One of the best ways for responsible defenders to increase their effectiveness is to meet, learn and progress together in one place. The Security Operations Summit (SOS) is the premier annual event of the FBSN for doing that.

We are glad you are here. We worked hard to provide the most seasoned speakers, presenters, and trainers we could find to make your time here worthwhile.

Put your name inside the cover of this book and keep it with you throughout the event. Fill it with notes in all the right places. Take it home and share the things you learn here.

We poll all attendees after the event is over. Your notes should help you recall the right responses when you receive that poll. What we learn from that poll goes into our efforts for continuous improvement as we make each year's summit better than the one before.

Settle in and capture all the knowledge and new contacts you can. Consider becoming a member of the FBSN too.

Thank you for being here.

Carl Chinn, President
Faith-Based Security Network, Inc.

Your Church's Complete
Safety Team Blueprint

There are other fine works out there by those who wrote of "church security" based on how they saw it from their individual demographic. This book however, was written and reviewed by experts from the east coast to the west, huge mega churches, and small congregations. With this book you can frame your own program consistent with the models being used successfully by others.

Volunteer Hearts

First responders are limited by geography, funding and numbers. As violence at faith based properties increases, their ability to help is limited. With the philosophy of “Teach a man to fish”, we can deal with any issues as they arise.

I am the good Shepherd. The good Shepherd lays down his life for the sheep. The hired hand is not the shepherd and does not own the sheep. So when he sees the wolf coming, he abandons the sheep and runs away. Then the wolf attacks the flock and scatters it. -John 10:11-13

The Money

We understand that money isn't everything, but it is a consideration. Because we use volunteers, we are able to mitigate a lot of expenses for you. Compared to a traditional model of hiring police or a security company, our cost reduction is around 80% to 90% lower.

Legitimacy

With too many churches just allowing LTC carriers to “guard” with little or no training and no accountability, the stakes couldn't be higher. We offer a high level of training to include several days of firearms training, handcuffing, defensive tactics, de-escalation techniques, tactical medicine and reality force on force training. Our training never stops, and we require bi-annual in-service training as part of our package.

SPECIAL THANK YOU TO OUR HOST

CORNERSTONE CHURCH

Declaring Jesus everywhere and leading believers in a life of resilient faith. www.cornerstone.church

The FBSN wants to sincerely thank Cornerstone Church for hosting & leading our worship experience at SOS.25!

THANK YOU TO ALL PAST HOSTS

CHERRY HILLS COMMUNITY CHURCH (SOS.24)

We believe that all people were made in the image of God and as such we love and value everyone. We commit to demonstrate God's love to others through our actions and compassion to meet the practical, emotional and spiritual needs of our community. www.chcc.org

THE JOURNEY CHURCH (SOS.23)

The Journey Church exists to show Jesus as incomparably glorious. We believe that to whom much is given much is required (Luke 12:48). God has blessed TJC with incredible people, opportunities, influence, and resources. We have a responsibility to be a bold Great Commission church. www.tjclive.com

EVANGEL UNIVERSITY (SOS.22)

We had over 300 attendees join us in Springfield, MO on the beautiful Evangel University Campus. The second year of moving the SOS around the country was such a great experience it confirmed that is the way to do it. www.evangel.edu

SECOND BAPTIST CHURCH (SOS.21)

In our first attempt to meet after the COVID crisis, we were prompted by continuing Colorado Covid politics to move the SOS to Texas. We chose the huge campus of Second Baptist Church in Houston. It worked so well we decided to move the SOS around the country each year! www.second.org

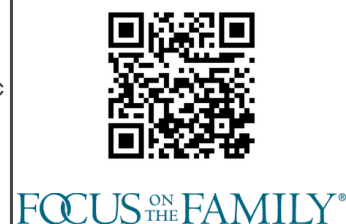

WOODMEN VALLEY CHAPEL (SOS.19)

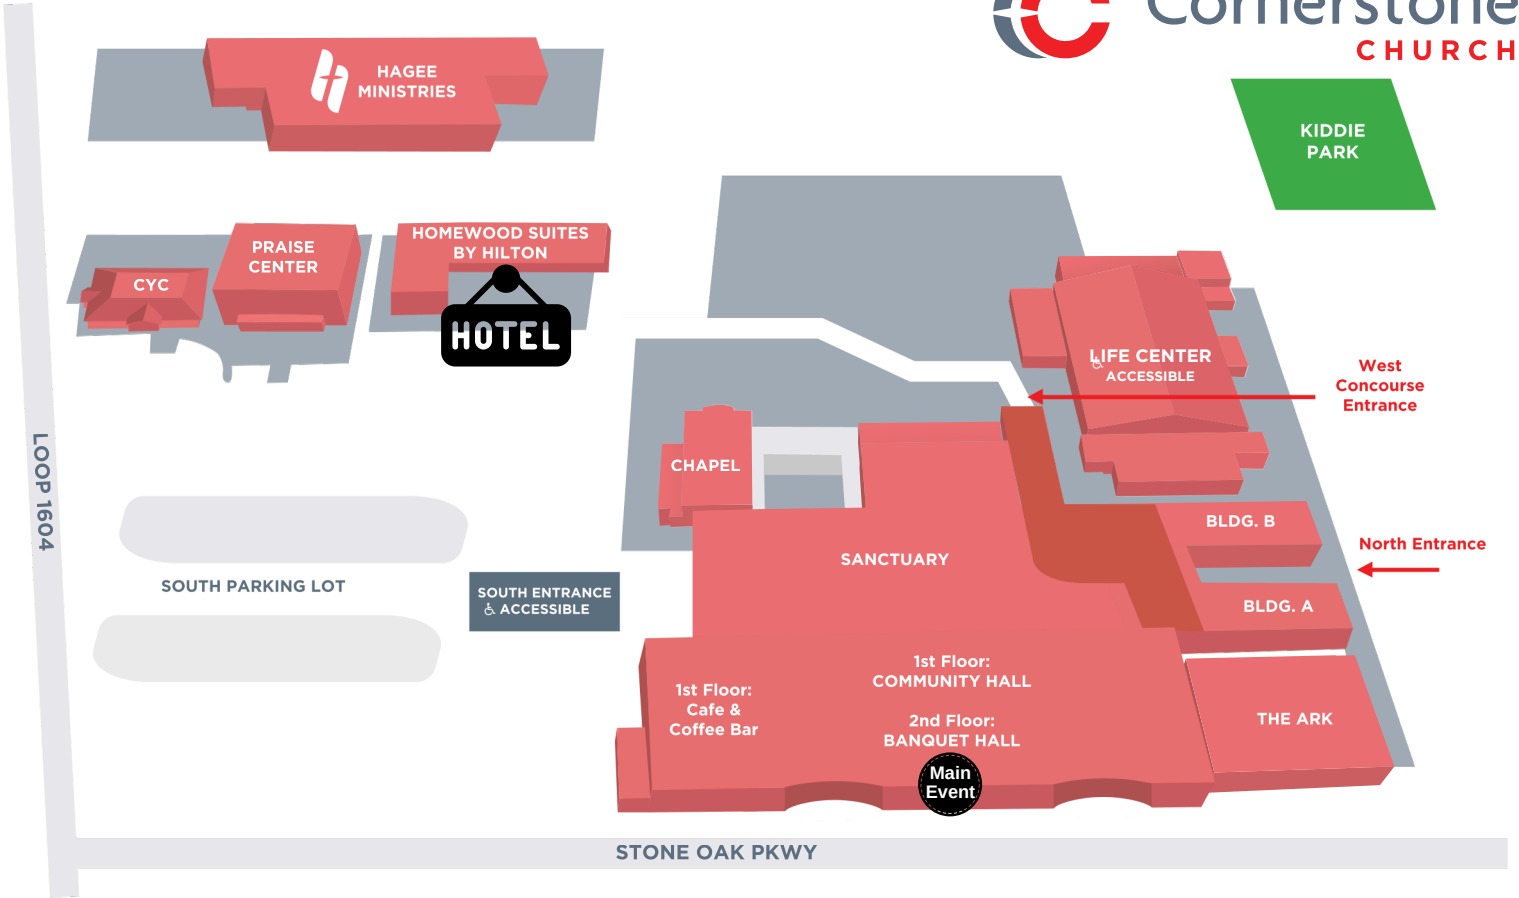

For the 2nd annual SOS event, we had intentions to make Colorado Springs, CO the go-to city for all future SOS events. We enjoyed the wonderful hospitality of Woodmen Valley Chapel as we met at their primary campus. www.woodmenvalley.org

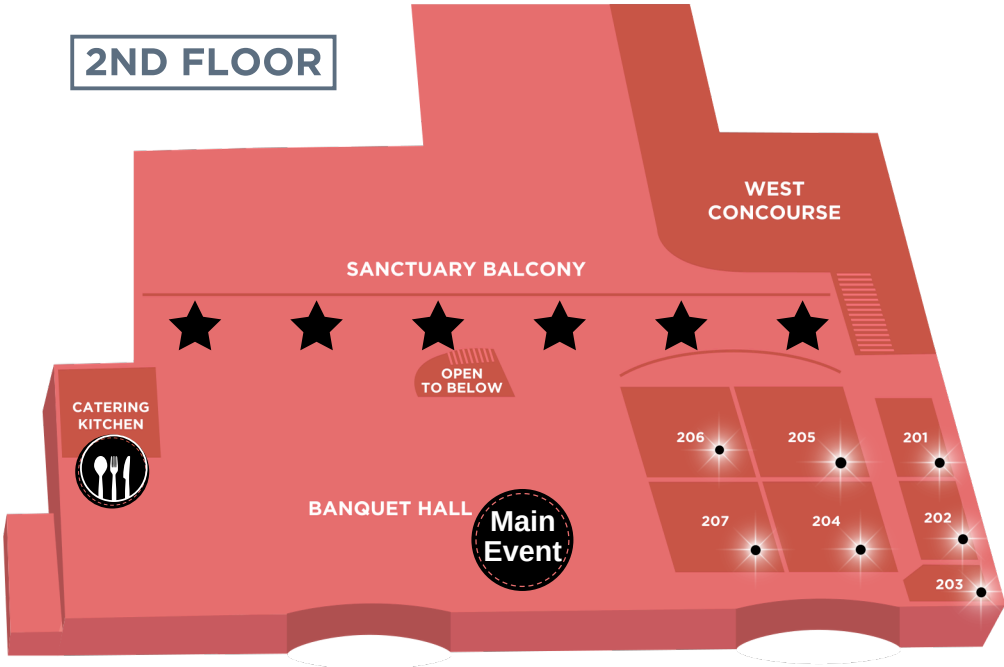

FOCUS ON THE FAMILY (SOS.18)

There was no more logical place to launch the annual SOS event than at the ministry where the first dramatically public faith-based security incident had unfolded in 1996 which moved the founder of the FBSN into faith-based security. With over 200 attendees it was a confirming event. www.focusonthefamily.com
