## Women's Cycle of Life Training of Trainers

April 12-15, 2021  
Online

Women's Cycle of Life is a Community Health Evangelism (CHE) curricula and training that empowers CHE teams to respond effectively to the wholistic needs of women. Includes safer pregnancy, childbirth and infant care, puberty to menopause, healthy marriage and family relationships; small business development; Biblical truths that transform, preventing trafficking and much more. Those new to CHE will be introduced to CHE methodology and this successful ministry tool for women and families.
