NAME

The FBSN is different. Our annual event is too.

1. Look around you. Everyone here has been vetted to confirm they are either a currently certified law-enforcement officer, an emergency first-responder, a chaplain, active in safety or leadership at their ministry, or a sponsor supporting the FBSN. You have all successfully passed through some form of vetting.
2. Look at the speakers. 35 speakers teaching in 60 sessions over 3 days. They are delivering the teaching, training and tools needed to help you be ready, willing & able.
3. This booklet is designed to fit in your file folder back home. Most importantly however, take notes for advanced training for your home teams – don't leave it in that file! Put it to work.
4. The FBSN is distinctive; a professional 501c3 association of empowered members. The FBSN brings professionalism to our endeavor as the trend towards responsible citizen defenders continues.
5. How about this facility and their hospitality!? Take some time to increase your familiarity with Cherry Hills Community Church and their mission.

Thank you for being here.

Over 300 of you have come from 39 states for the 6th annual Security Operation Summit! We are doing regional FBSN events throughout the year as well starting with Region 4 in Mississippi this October.. If you want a regional conference in your area, contact us.

READY

Show up. Be present when you're counted on.

WILLING

Be spiritually and mentally willing to do the right thing.

ABLE

Be properly trained and equipped.

ABOUT THE FAITH BASED SECURITY NETWORK

The FBSN now has over 800 members in 46 states!

Law-enforcement officers, private security professionals and volunteer security operators came together across America over the last 8 years to form the Faith Based Security Network (FBSN).

FBSN members understand no one person has all the answers, nor is there any one answer for all security related possibilities, locations and cultures. FBSN members however, have the benefit of the collective acumen and experience of hundreds of connected peers through the professional membership association. Members can engage with each other to collaborate best practices, proven resources and partake in secure communications in their quest for doing faith-based security well.

One of the best ways for responsible defenders to increase their effectiveness is to meet, learn and progress together in one place. The Security Operations Summit (SOS) is the premier annual event of the FBSN for doing that.

We are glad you are here. We worked hard to provide the most seasoned speakers, presenters and trainers we can get to make your time here worthwhile.

Put your name inside the cover of this book and keep it with you throughout the event. Fill it with notes in all the right places. Take it home and share those things you learn here.

We poll all attendees after the event is over. Your notes should help you recall the right responses when you get that poll. What we learn from that poll goes into our efforts of continuous improvement as we make each year's summit better than the one before.

Settle in and capture all the knowledge and new contacts you can. Consider becoming a member of the FBSN too.

Thank you for being here.

Carl Chinn, President
Faith-Based Security Network, Inc.
