Dear Friends and Colleagues,

It is my pleasure to invite you to the **Security Operations Summit 2026**, being held **July 23–25 at Southeast Christian Church in Louisville, Kentucky**. Each year, this conference stands as a testament to the dedication, professionalism, and shared mission of those who protect and serve within houses of worship across our nation.

The **Faith Based Security Network** was founded on a simple but vital conviction: that ministry security operators, ministry leaders, law-enforcement partners, first responders, and our professional affiliates are stronger when we are connected, equipped, and encouraged. As a Christian-based professional membership association, we remain committed to elevating the standards of our field while supporting the men and women who carry out this work with courage and conviction.

This year's Summit will bring together experts and leaders who understand the unique challenges of securing places of worship and ministry environments. Through training, collaboration, and shared experience, we aim to strengthen not only our readiness but also the relationships that sustain this community.

We have included a **flyer with additional details** about the Summit, including session highlights, registration information, and opportunities for engagement. I encourage you to review the agenda and share it with others who would benefit from being part of this gathering.

Thank you for your commitment to safeguarding ministries and the people they serve. I look forward to the conversations, learning, and fellowship that await us in Louisville.

With respect and gratitude,  
**Carl Chinn**  
President & Founder  
Faith Based Security Network
