IPC Reveals Strategic Changes from Contraception to Abortion, and Surgical to Chemical Abortion

Thomas W. Jacobson, Founder, Global Life Campaign

This week (13-18 July 2025), the **30th International Population Conference (IPC 2025)** is being held in Brisbane, Australia. More accurate names would be International De-Population Conference; or Strategic Conference to Create a Global Shift from Contraception to Abortion, or Global Shift from Surgical Abortion to Chemical Abortion; or Global Strategy to Make Abortion Pills

Available Through Every Pharmacy and Drug Store Without Accountability; or International Conference to Remove All Barriers to Sexual Activity and Abortion; or How to Encourage Young Unmarried People to Have Sex and Avoid “Undesired Births”; or Making Abortion a National and International “Human Right.”

Here is a sample of the IPC 2025 session topics [my comments in brackets]:

- Session 2: Sexual and Reproductive Health, Abortion, Adolescent Pregnancies Plenary: Global Threats [any substantial opposition] to Sexual and Reproductive Health;
- Session 63: Sexual and Reproductive Health During Crisis: Social Norms and Premarital Use of Family Planning Among Adolescents and Young People in Uganda;
- Session 72: Moving Family Planning Measurement Forward with a Rights and Justice Lens;
- Session 73: Sexuality, Health and Rights: LGBTQ Populations: Barriers to the Enjoyment of Sexual and Reproductive Health and Rights for Lesbian and Bisexual Adolescent Girls and Young Women in Mozambique;
- Session 105: Progress and Barriers in Accessing Legal Abortion Services in Argentina;
- Disparities in Access to Abortion Care [universal access is their goal];
- Abortion, Contraception, and LGBTQI Rights: Examining the anti-SRHR agenda in Sub-Saharan Africa;
- Session 116: Sexual and Reproductive Health and Rights [means full access to contraception, abortion, after-abortion care for children, teens, and adults without reference to morality, marriage, spouse, parents, etc.];

- Session 138: Medical Abortion: Safety and Methods: Medication Abortion Stock and Willingness to See in Pharmacies and Drug Stores in Addis Ababa, Ethiopia;
- Spotlight Session: Progress Through Partnerships for Safe Abortion Access in Africa;
- Session 189: Contraceptive Use and Discontinuation: Abortion Rather than Contraception: The Pathway to Fertility Transition in Pakistan.

PRAY that the Spirit of GOD would be moving in every individual with any openness toward Him, and be moving in their midst, to convict them “concerning sin and righteousness and judgment” (John 16:8), that they may know Jesus Christ, receive forgiveness of all their sins, be born again, have eternal life, and become defenders of the sanctity of human life; instead of facing His eternal judgment.

With gratitude for the LORD, the sacred gift of life, and remembrance of the babies,

Thomas W. Jacobson
